EDUCATION

Bachelor of Science in Agricultural and Biological Engineering

August 2024 - May 2028

Grainger College of Engineering

University of Illinois Urbana-Champaign

Mathematics Minor

SKILLS AND INTERESTS

Interests	Design, Urban Agriculture, CAD/CAE, Networking, Optimization, Dynamics, Modeling and Simulation, Computer Vision, Machine Learning, Linux, Docker
Design Software	Autodesk Fusion, MATLAB

PROJECTS

Training and Development of a Computer Vision Model for Precision Agriculture

January 2026 - May 2026

Undergraduate Research under Dr. Sunoj Shajahan

- Developed a streamlining process for training computer vision models on large datasets to aid in model tuning
- Compared the runtime of popular CVML models to determine the best model for object detection in precision agriculture
- Lead in the development of a script to perform mass augmentations on datasets to increase available training data for computer vision models

Design and Stress analysis of Bike Frame in Autodesk Fusion

April 2026

Minor Project as a part of curriculum

- Performed shape and stress analysis on bike frames to minimize material usage and optimize safety factor
- Determined proper load applications through experimental design to ensure accurate simulation
- Generated multiple variants of the bike frame to compare analytically

Design Marketing Campaign for International Sustainable Fashion Company

August 2024 - December 2024

Major Project as a part of curriculum - MOVIN fashion company

- Performed a SWOT analysis on MOVIN to determine ways to improve their company's outreach
- Designed a Digital Product Passport system to fingerprint information about the manufacturing of products
- Gained international experience by working with engineering students and workers in Brazil

Home Server Design

September 2025 - Present

Hobby project

- Converted an old laptop into a Linux-based homeserver to host locally hosted software and a website
- Performed troubleshooting to ensure system stability and reduce downtime
- Gained experience with Linux systems, docker, and bash

INTERNSHIP/TRAININGS

Undergraduate Research under Dr. Sunoj Shajahan,

Department of Agricultural and Biological Engineering at UIUC, Illinois

January 2026 - May 2026
